

Double Your  
Small Group  
This Year!

---

This simple outline can be found in the book “You can double your class in two years or less” by Josh Hunt.

Teach a half decent lesson, each and every week, nothing less will do!

- 
- The number one variable in predicting the growth of a class is the teaching ability of the teacher.
  - 10 Marks of Great Teaching  
Passion, preparation, practicality, background, humor, introduction, personal element, inspiration, involvement, focus

# Invite every member and every prospect to a fellowship every month!

- Donald McGavran – “Ice Cream Evangelism”  
*“Most people who are opposed to the gospel are not opposed to ice cream”*
- Remove the attendance barriers  
*“If we can get them to the party, we cannot keep them away from the class”*
- Train your class members how to party!  
*“It is a terrible mistake to invite people over and not be nice to them.”*

# Give Friday Nights To Jesus!

How can I use the natural rhythms of my week in order to connect with prospects for my class?

How can I model this for others in my class so they might do this as well?

## Encourage The Group To Ministry!

- Is there someone in our group that we need to send out to serve?
- Is there a project in our church or community that we can work on together as a class?
- Is there a crisis that God is inviting our class to confront for ministry?

# R

## Reproduce Your Group!

- Every class needs to enlist a co-teacher with the understanding that our class will be dividing. We need to be “born pregnant”.
- There are numerous growth barriers to churches some are easier than others to break through. Space, leadership, organization, etc. Beginning new groups is something that every church can do.

## Reproduce Your Group!

*“Reproducing a group has always been difficult on any level. But reproduction is the key to the survival of future generations. There is no other way. Doubling your class does not mean going from ten members to twenty. That is easy. Doubling means going from one group to two.”*
